

FARM BEGINNINGS COLLABORATIVE

The Farm Beginnings Collaborative (FBC) is a national alliance of independent groups of farmers and farmer-training organizations. We are working together to promote Farm Beginnings.

Farm Beginnings is unique in that it is a training model for beginning farmers that is **farmer-led, community based, and focused on sustainable agriculture.**

Farm Beginnings is emerging as the most effective way to increase the number of farmers who are building food and farm economies that are local, fair, and healthy. We have graduated hundreds of farmers and more than 79% of our graduates are farming.

Our model is adaptable to diverse regions. Would you like to join the Farm Beginnings Collaborative?
