

# BEGINNING FARMER BUSINESS MANAGEMENT RESOURCES

Kevin Klair

Center for Farm Financial Management

## Project Organization

NIFA Award  
2018-70017-28605

## Project Partners

Rural Community College Alliance

## Overall Goals

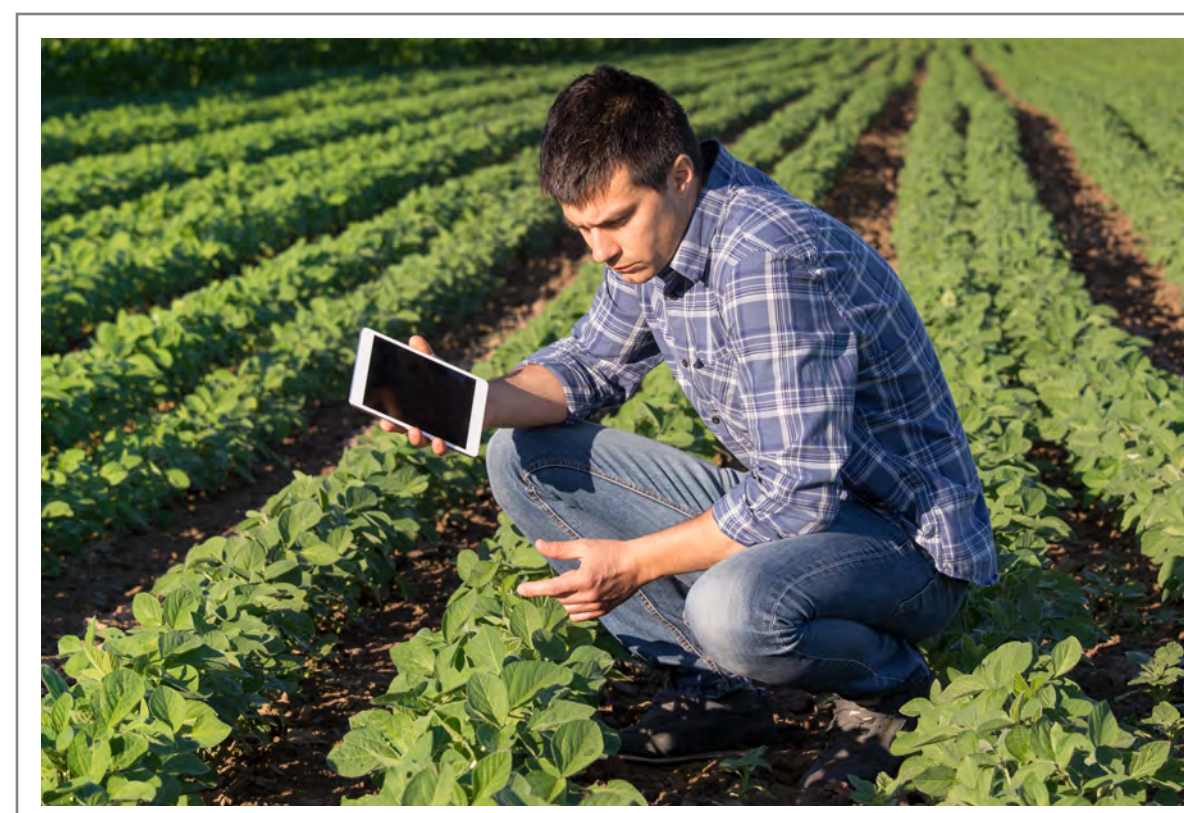

1. Expand and improve the resources available to help beginning farmers and ranchers better use financial business management tools and programs to advance their agricultural endeavors.
2. Develop new financial management tools and programs, create curriculum, and improve existing programming that will enable new growers and educators to more effectively use financial management resources.
3. Provide comprehensive and well-organized curriculum and train-the-trainer resources to better equip educators and organizations that work with beginning farmers and ranchers to help them with financial and business management training.

## Anticipated Outputs

- **Identify gaps** in existing farm financial and business management tools and programs for beginning farmers and ranchers.
- **Develop a comprehensive, organized set** of farm financial and business management tools, curriculum, and training programs oriented toward beginning farmers and ranchers.
- **Deliver financial and business management train-the-trainer workshops** for people working with beginning farmers and ranchers.

*Ag Educator works with beginning farmers*

*Using an Online pest identification tool*

*Train-the-trainer workshop*
